

LEEGATOR 41 conc

Special emulgator for printing

Characteristics

Type of product	polyglycol ether
Ionogenity	nonionic
Appearance	transparent
Consistency	liquid

Properties

- Stable emulsion and resistant to electrolyte
- High fastness and leveling print
- After printing ,can be washed easily
- Don't block fabric printing shablons
- Stable for long time

Application

Dissolving method dissolve in water easily

Guide recipe

Leegator 41conc

Concentrating chemical	15 g/kg
Ammonium sulfat	2 g/kg
Leegator 41 conc	10-15 g/kg
Urea	100 g/kg
Binder	80-100 g/kg
oil	200-400 g/kg
Water	X g/kg
Pigment or dye	Y g/kg

Storage stability at least 12 months
