## LEEWET DOSS

Wetting and washing agent

Characteristics	
Type of product	dioctyl sulfosuccinate sodium salt
Ionogenity	anionic
Appearance	yellow viscous liquor
Activity	70%

### **Properties**

- High dispersing effect
- excellent wetting power
- Increase the degree of whiteness
- Useable for exhaustion and semi-continues and continues method
- Useable for increasing penetration and leveling dyeing

#### Application

Dissolving with warm water in a ratio

#### **Exhaust Process**

jigger	1-2 g/l
Haspel	0.5-1 g/l
Bobbin and yarn dyeing	0.5-1 g/l

#### **Continuous Process**

J box	1-3 g/l
Roller-bed steamer	2-3 g/l
Cold - padbatch	6-8 g/l

#### **Spesial remarks**

Storage stability at least 12 months The products sensitive to frost. If it is cold,must used after thawing and stirring.
